

Accessing 2020 Census Redistricting Data on data.census.gov – Searching for Block Data

This informational flier shows you how to search for block level data using the 2020 P.L. 94-171 Redistricting Data on data.census.gov. These tables provide housing, demographic, and population data to our users, and are available down to the block level, the smallest geographical unit for which the Census Bureau tabulates data.

To get started, navigate to data.census.gov and click on the 'Advanced Search' button located directly underneath the Single Search bar.

Once you click on that link, you will see a list of filters on the left side of the screen. To access the Redistricting Data, click on the 'Surveys' filter and select the 'Decennial Census' option. Then, scroll down the list until you see 'Redistricting Data' with 'PL 94-171' in parentheses. Click on the checkbox directly to the left of this survey title.

Since we want to view the newest tables from 2020, go to the 'Years' filter and select '2020' from the list.

The screenshot shows the United States Census Bureau search interface. The 'BROWSE FILTERS' panel on the left has 'Years' selected. The 'YEARS' list on the right shows '2020' selected with a checkmark. The 'Selected Filters' bar at the bottom shows 'Redistricting Data (PL 94-171)' and '2020 Year'. The 'SEARCH' button is visible on the right.

Next, select the geography you want to view. For this example, let's search for all blocks within Citrus County, Florida. To do this, select the 'Geography' filter, and then click on 'Block' in the next panel. Then, select 'Florida' as the state in the following panel. Since we want blocks from Citrus County, click on the 'Citrus County, Florida' option from the list. As we advance along in the search, the geographies get smaller, so the next step is to select the Census Tracts that you want to view. Let's choose 'Census Tract 4502.01, Citrus County, Florida'. The last step in this part of the search is to select the Blocks that you want to view that are in this Census Tract. Let's choose Blocks 1001, 1002, and 1003 at the top of the list to keep things simple for this example.

The screenshot shows the United States Census Bureau search interface with multiple filters applied. The 'BROWSE FILTERS' panel on the left has 'Geography' selected. The 'GEOGRAPHY' panel shows 'Block' selected. The 'WITHIN (STATE)' panel shows 'Florida' selected. The 'WITHIN (COUNTY)' panel shows 'Citrus County, Florida' selected. The 'WITHIN (TRACT)' panel shows 'Census Tract 4502.01, Citrus County, Florida' selected. The 'CENSUS TRACT 4502.01, CITRUS COUNTY, FLORIDA' panel shows 'Block 1001, Block Group 1, Census Tract 4502.01, Citrus County, Florida', 'Block 1002, Block Group 1, Census Tract 4502.01, Citrus County, Florida', and 'Block 1003, Block Group 1, Census Tract 4502.01, Citrus County, Florida' selected. The 'Selected Filters' bar at the bottom shows 'Redistricting Data (PL 94-171)', '2020 Year', 'Block 1001, Block Group 1, Census Tract 4502...', 'Block 1002, Block Group 1, Census Tract 4502...', and 'MORE (1)'. The 'SEARCH' button is visible on the right.

Once you have your survey, year, and geography filters applied to your search, click on the 'Search' button on the bottom righthand corner of the screen.
